

Notice of Proposed Amendments to DASR Part M AMC and GM

DASA wishes to advise that Notice of Proposed Amendments (NPA) for DASR Change Proposal (DCP) 2024-033 has been published for external consultation and welcomes responses from the wider Defence aviation community prior to 13 Dec 24.

The purpose of this NPA is to communicate intended rationalisation of ADF unique DASR M Acceptable Means of Compliance (AMC) and Guidance Material (GM), prior to the introduction of content from European Military Airworthiness Requirements (EMAR) M Edition 2.0 and EMAR CAMO Edition 1.0.

To assist the Defence aviation community in initially transitioning to DASR, ADF unique AMC and GM (green text) was developed. It is proposed that some of this green text should be amended, removed or relocated to improve clarity and readability, as well as to facilitate a transition to the latest version of EMAR.

NPA for DCP 2024-033 is available from [DASA Policy Development Website](#)

Please send any requests for additional information or questions concerning this NPA to DASA at dasa.dasr@defence.gov.au
