

REQUEST FOR CONTINUING AIRWORTHINESS ‘TOWN HALL’ TOPICS

Following a number of DASA ‘Town Hall’ style information briefings on Continuing Airworthiness topics, the latest on 13 February 2025 titled “Operation of an Aircraft with a Known Defect”, the Directorate of Continuing Airworthiness in DASA is seeking suggestions from the Aviation Safety Community on future topics for these ‘Town Hall’ events.

Topic suggestions are welcome from both the Department of Defence and Defence Industry. Topics are to be provided to the DASA.DCA mailbox dasa.dca@defence.gov.au.

To support scheduling & prioritisation, DASA requests topic suggestions include references to relevant regulations and any outcome sought from the ‘Town Hall’. Please also include details on any safety concerns or capability enhancement opportunities that the information briefing should address.
