

DASA AVIATION SAFETY POLICY ROADMAP

* Major DCPs planned for incorporation.

...✓ = Complete

Explanatory Notes

- The DASA Aviation Safety Policy Roadmap identifies the current and planned activities being undertaken by DASA in support of Defence aviation safety policy.
- In this context, Policy is defined as principle documents, owned, sponsored or produced by DASA in support of Defence aviation safety.
- Listed activities are grouped into four categories:
 - **DASR Changes** (regulatory changes classified as Major)
 - **Advisory Circulars**
 - **Factsheets**
 - **Other** (activities outside of the above categories)
- The aim of this DASA Aviation Safety Policy Roadmap is to keep the regulated community abreast of the current and future activities by DASA which focus on improving Defence aviation safety policy.
- Through these activities, DASA continuously strives to develop Defence aviation safety policy which is:
 - Coherent.
 - Clear in intent.
 - Consistent in style.
 - Aligned to established conventions as required by Joint Directive 24/2016.
 - Able to be readily understood and implemented by the regulated community.
 - Suitable for the Defence context.
