Capability First, Safety Always

2021 *Display Flying* hot off the press

The 2021 *Display Flying* Spotlight Special is out now.

The 86-page publication is packed with articles covering the many varied facets of display flying and features an array of aircraft within our ADF inventory — fast jets, formations, big-wing multi-engined aircraft, rotary wing and drones.

It also revisits a selection of articles contained in the original *Display Flying* special of 2007 with contemporary commentary not only ensuring its relevance for today's readership but providing a valuable personal connection to the accidents and incidents covered.

Hard copies will be distributed to ADF flying units shortly.

Display Flying Spotlight Special can be found at:
