Interim Military Maintenance Authority (iMMA) Applications

DASA issued AC 001/2021 detailing the interim arrangements for certification of on-aircraft structural repairs and the introduction of an interim 'Military Maintenance Authority' (iMMA) for Structural Technicians. In order to expedite the processing of applications DASA has updated Enclosure 2 and the How to Guide to compiling an iMMA application in AC 001/2021 to provide clarification of the evidence to be submitted along with the application. Applications submitted with insufficient evidence will require the applicant to provide the additional evidence to justify the approval of the iMMA, which may cause delays in processing.

Below are the links to AC 001/2021 and the evidence guide for iMMA applications:
