Capability First, Safety Always

RELEASE OF THE 2019 DEFENCE AVIATION SAFETY HEALTH ASSESSMENT

DASA wishes to advise that the 2019 Defence Aviation Safety Health Assessment (DASHA) has now been published on the DASA intranet page. It is accessible to DPN users only at the link below.

The DASHA provides the vehicle through which the DASA can communicate the performance of the Defence Aviation Safety Framework. The 2019 DASHA continues the format of the 2018 DASHA, with refinements including more FEG-based reporting. The DASHA uses the full scope of DASA's safety intelligence including DASA's compliance assurance and oversight programs, Snapshot cultural surveys, Aviation Safety Reports and Airworthiness Board Reports. The aim is to distil all intelligence into a series of 'key issues and risks' for further consideration by commanders and managers.

For further information, please refer to the following link:
