Safety Authority**

# COURSE ADMINISTRATION

## Welcome

How the course is run virtually:

- Questions
- Breaks
- Etiquette
- Feedback [DASA.ASMS@defence.gov.au](mailto:DASA.ASMS@defence.gov.au)
- PMKeys reported

# LEARNING OUTCOMES

1. Describe the Defence Aviation Safety Authority (DASA) and its structure.
2. Describe the origin, applicability and definitions of the Defence Aviation Safety Regulations (DASR) ASMS.
3. Describe the rationale of why ASMS is imperative for both the sustainment and continual improvement of aviation safety.
4. Describe safety relationships and organisational interfaces within the regulated aviation community.
5. Describe the DASR ASMS structure and assessment.
6. Develop a foundational understanding of the DASR ASMS components and elements.

## COURSE SCOPE

The ASMS Practitioner course will provide AVIATION SAFETY MANAGERS with the practical knowledge and tool to form part of the information required to allow them to implement, maintain and self-assess their respective ASMS in order to ensure that it is compliant, credible and defensible.

Defence Aviation Safety Authority

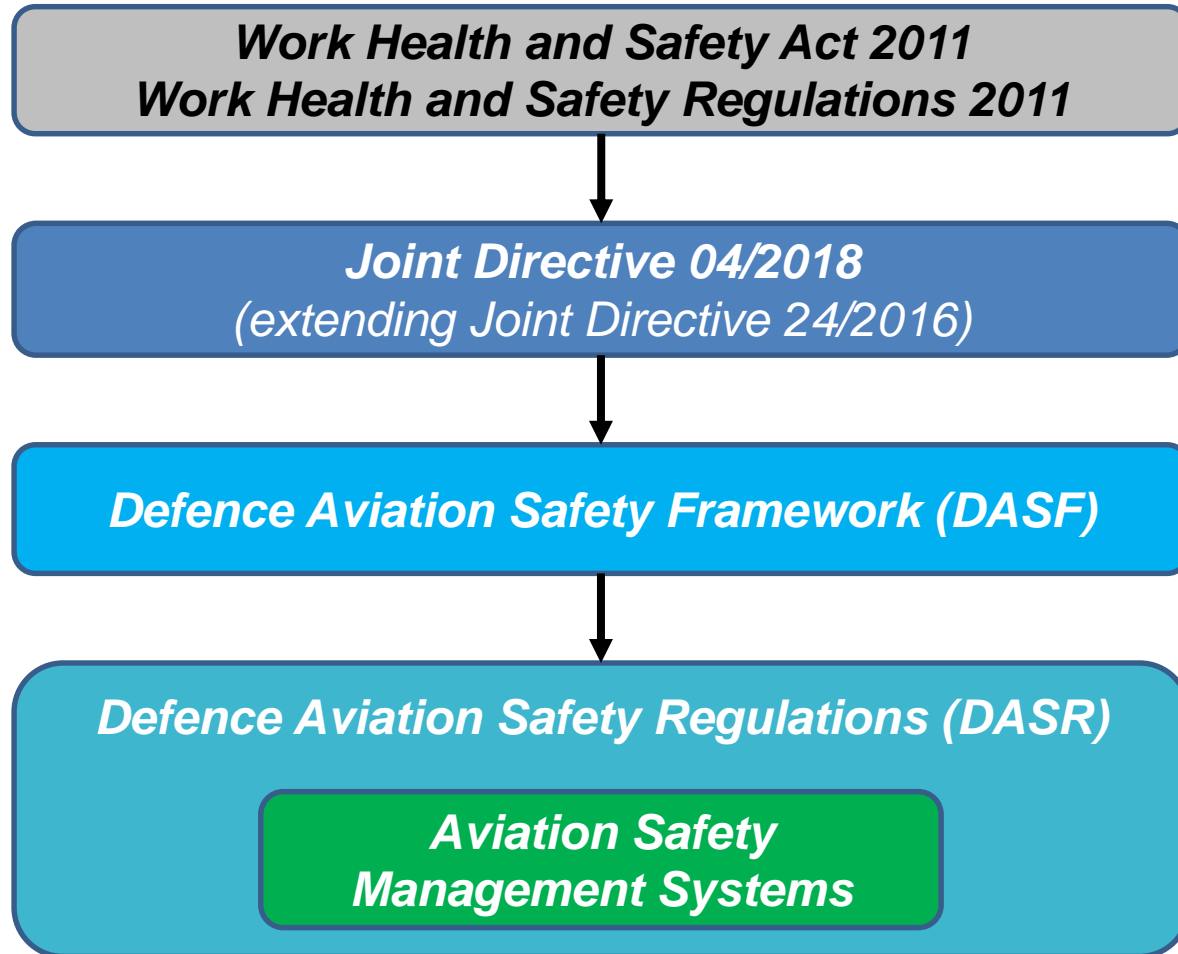

# ***DASA ORGANISATIONAL STRUCTURE AND ASMS CUSTODIANS***

# **Defence Aviation Safety Authority**

# DASR ASMS HIERARCHY

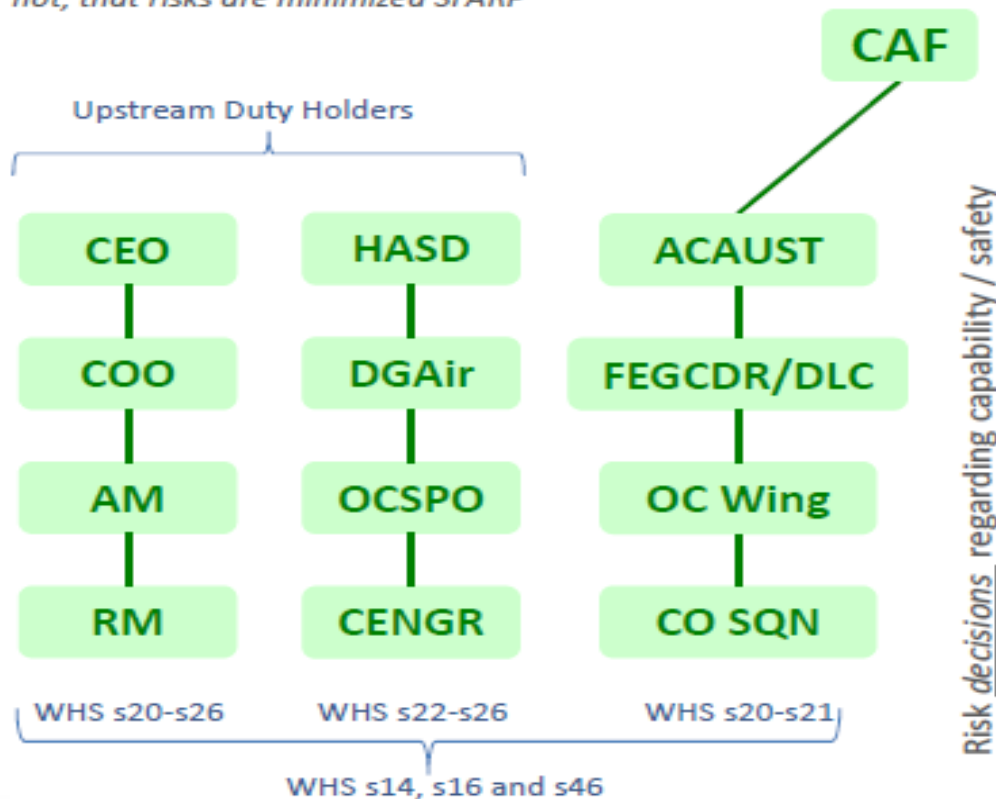

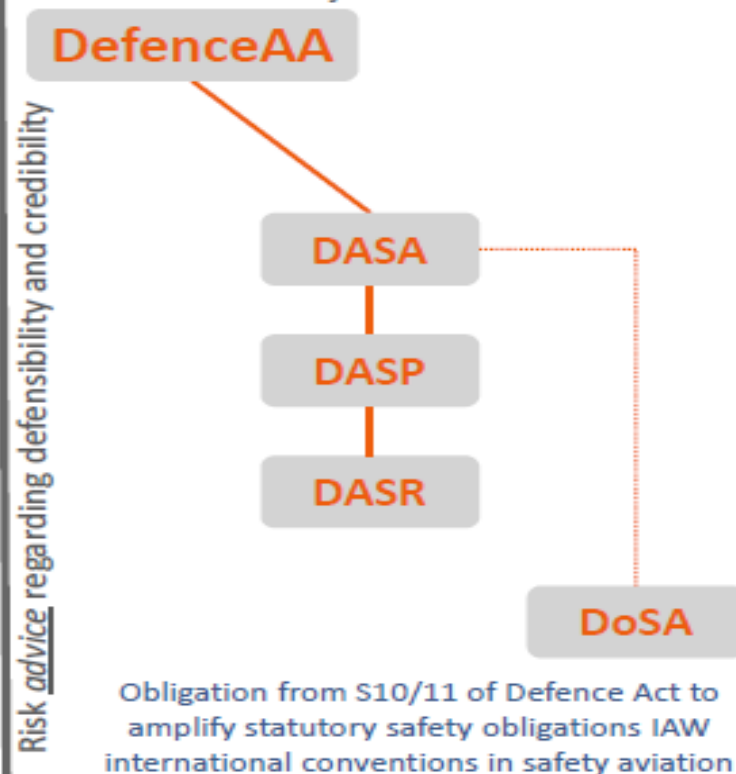

# COMMAND AUTHORITY AND THE MILITARY AIR OPERATOR

Command must ensure that hazards are eliminated SFARP or if not, that risks are minimized SFARP

DASF assures that safety of military aviation is both credible and defensible

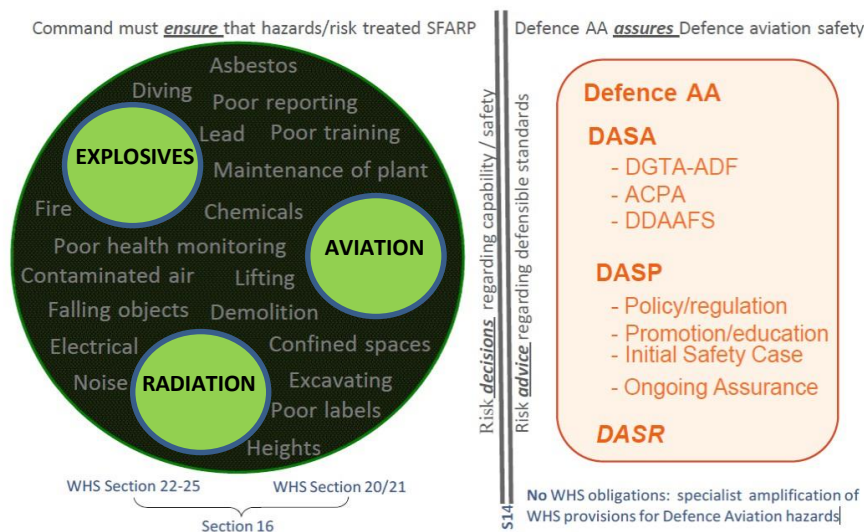

# DASR - ASMS & WHS

The WHS Act is specific regarding who is accountable under the Act.

In the Defence context, and IAW Sections 21 and 22 of the Act, Command is responsible for ensuring safety and therefore must make all judgements around safety hazards and risks.

It is also explicit that safety obligations cannot be transferred (i.e. delegated) to another person.

# ***DASR ASMS INTRODUCTION***

**Defence Aviation  
Safety Authority**

## DASR ASMS ORIGIN

- On 30 September 2016, a revised Defence Aviation Safety Framework (DASF) was introduced in accordance with Joint Directive 04/2018
  - transition to Defence Aviation Safety Regulations (DASR).
- The DASF can be traced back to International Civil Aviation Organization (ICAO) conventions that are in widespread use globally
  - **credible and defensible.**

# DASR ASMS ORIGIN

## Convention on International Civil Aviation

- ICAO (International Civil Aviation Organisation) originally established 07 December 1944
- 96 Articles, 19 Annexes - **Standards and Recommended Practices (SARPs)**
- 192 contracting States (November 2017)
- DASRs derive from EMARs, EASA & ICAO

# DASR ASMS ORIGIN

## Annexes to the Convention – SARPs

Annex 1 – *Personnel Licencing*  
Annex 2 – *Rules of the Air*  
Annex 3 – *Meteorological Services*  
Annex 4 – *Aeronautical Charts*  
Annex 5 – *Units of Measurement*  
Annex 6 – *Operation of Aircraft*  
Annex 7 – *Aircraft Registration*  
Annex 8 – *Airworthiness of Aircraft*  
Annex 9 – *Facilitation*  
Annex 10 – *Aeronautical Telecommunications*  
Annex 11 – *Air Traffic Services*

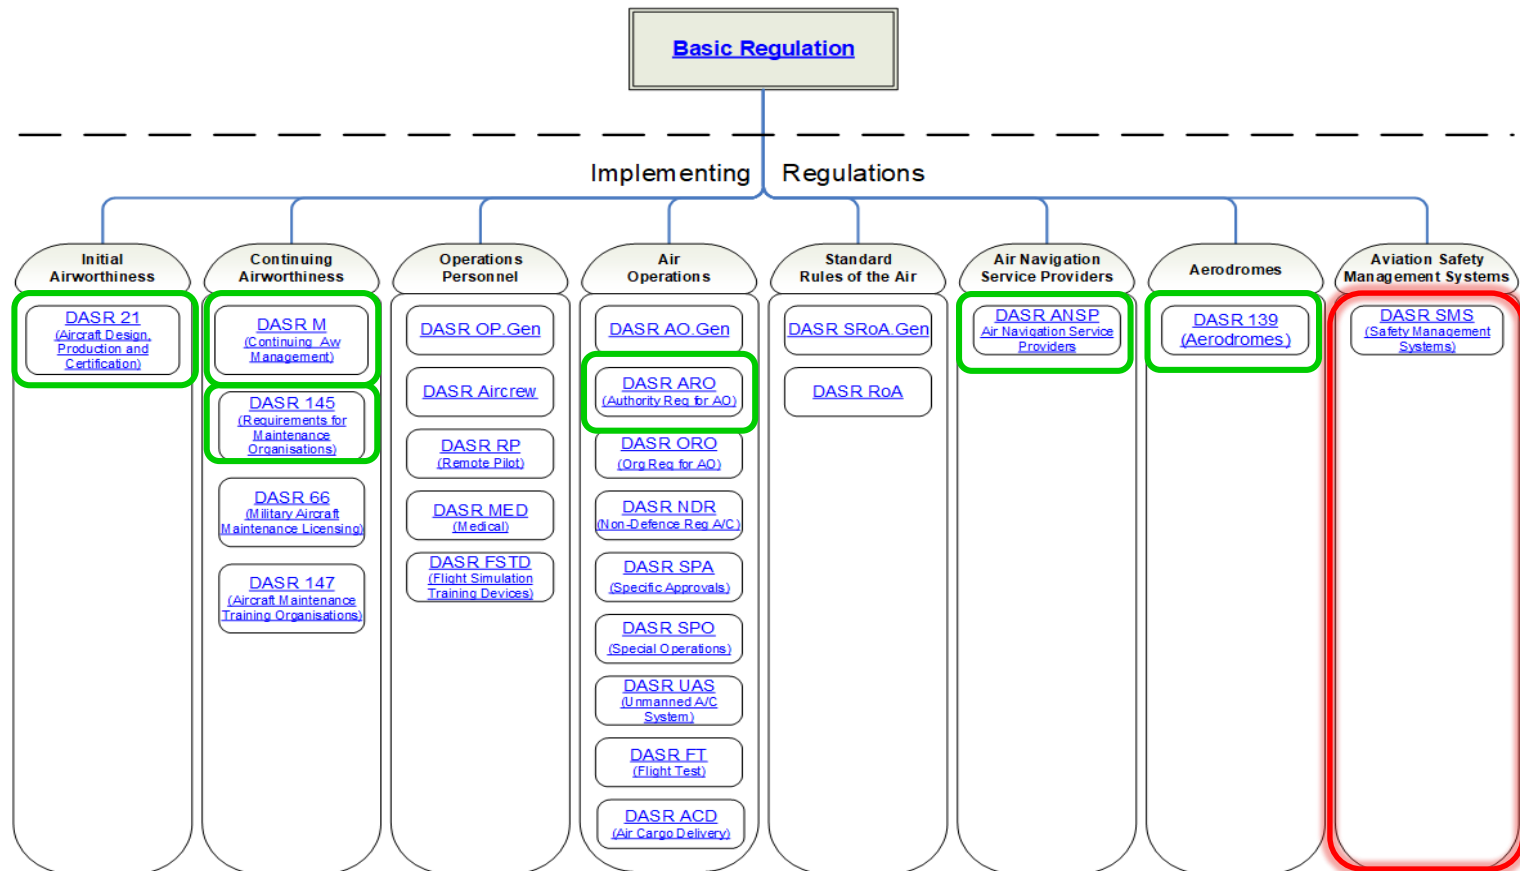

Annex 12 – *Search and Rescue*  
Annex 13 – *Aircraft Accident and Incident Investigation*  
Annex 14 – *Aerodromes*  
Annex 15 – *Aeronautical Information Services*  
Annex 16 – *Environmental Protection*  
Annex 17 – *Security*  
Annex 18 – *Safe Transport of Dangerous Goods*  
Annex 19 – *Safety Management*

# DASR ASMS APPLICABILITY

## Defence Aviation Safety Regulation (DASR)

# QUALITY MANAGEMENT SYSTEM - INTRODUCTION

## What is a QMS?

All activities of the overall management function that determine the quality policy, objectives and responsibilities and implement them by means such as quality planning, quality controls, quality assurance and quality improvement.

Reference: DASR Glossary

## INTRODUCTION TO DASR ASMS

### What is an ASMS?

A systematic approach to managing aviation safety, including the necessary organisational structures, accountabilities, policies and procedures.

Reference: DASR Glossary

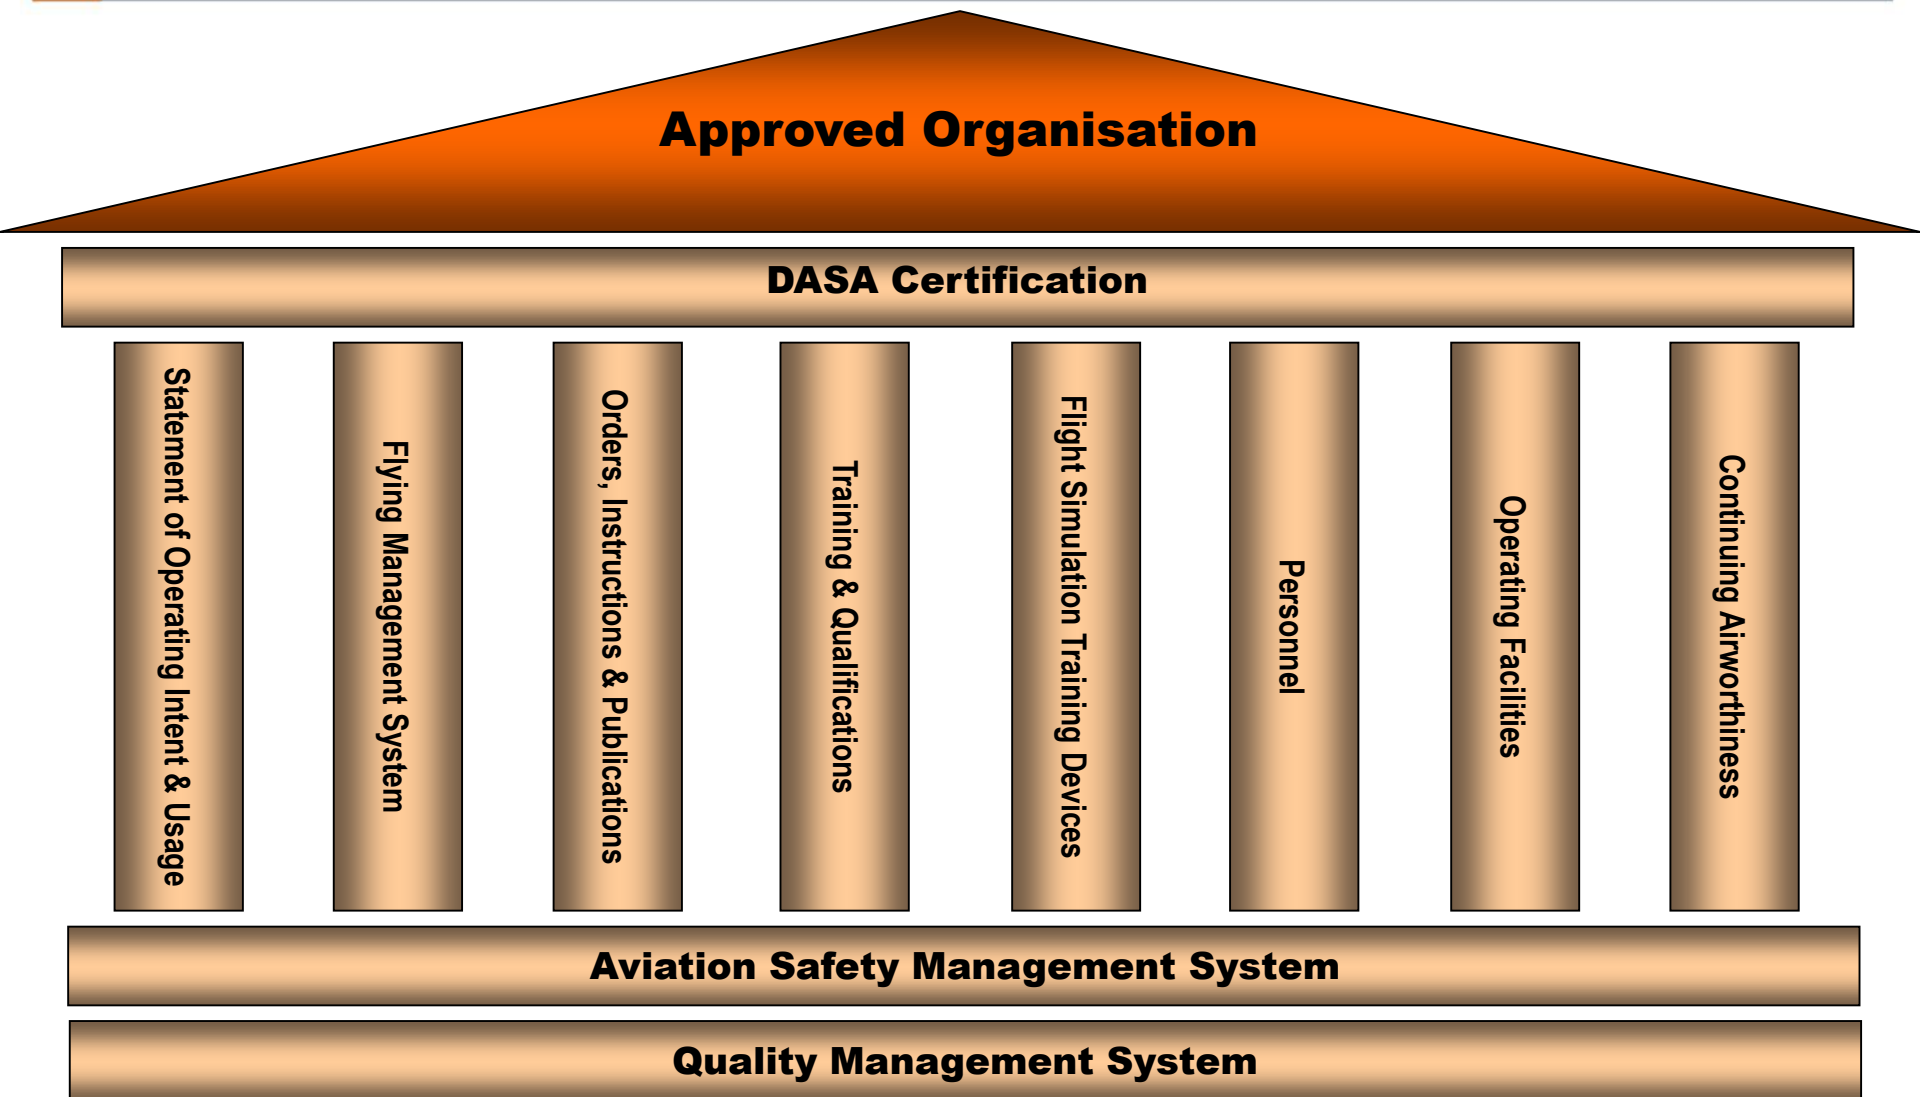

## QMS AND ASMS – INTERFACE

- **QMS** is for all business outcomes
- **ASMS** is focused on aviation safety outcomes
  - i.e. **ASMS** is a subset/amplification of the organisation **QMS**
- DASR is based on a management assurance philosophy.
  - Based largely on internal assurance
  - Independent/external assurance (less frequent)
- Functional and robust **QMS** and **ASMS** are both essential.

# DASR ASMS AND QMS DEPENDENCY

# INTRODUCTION TO DASR ASMS

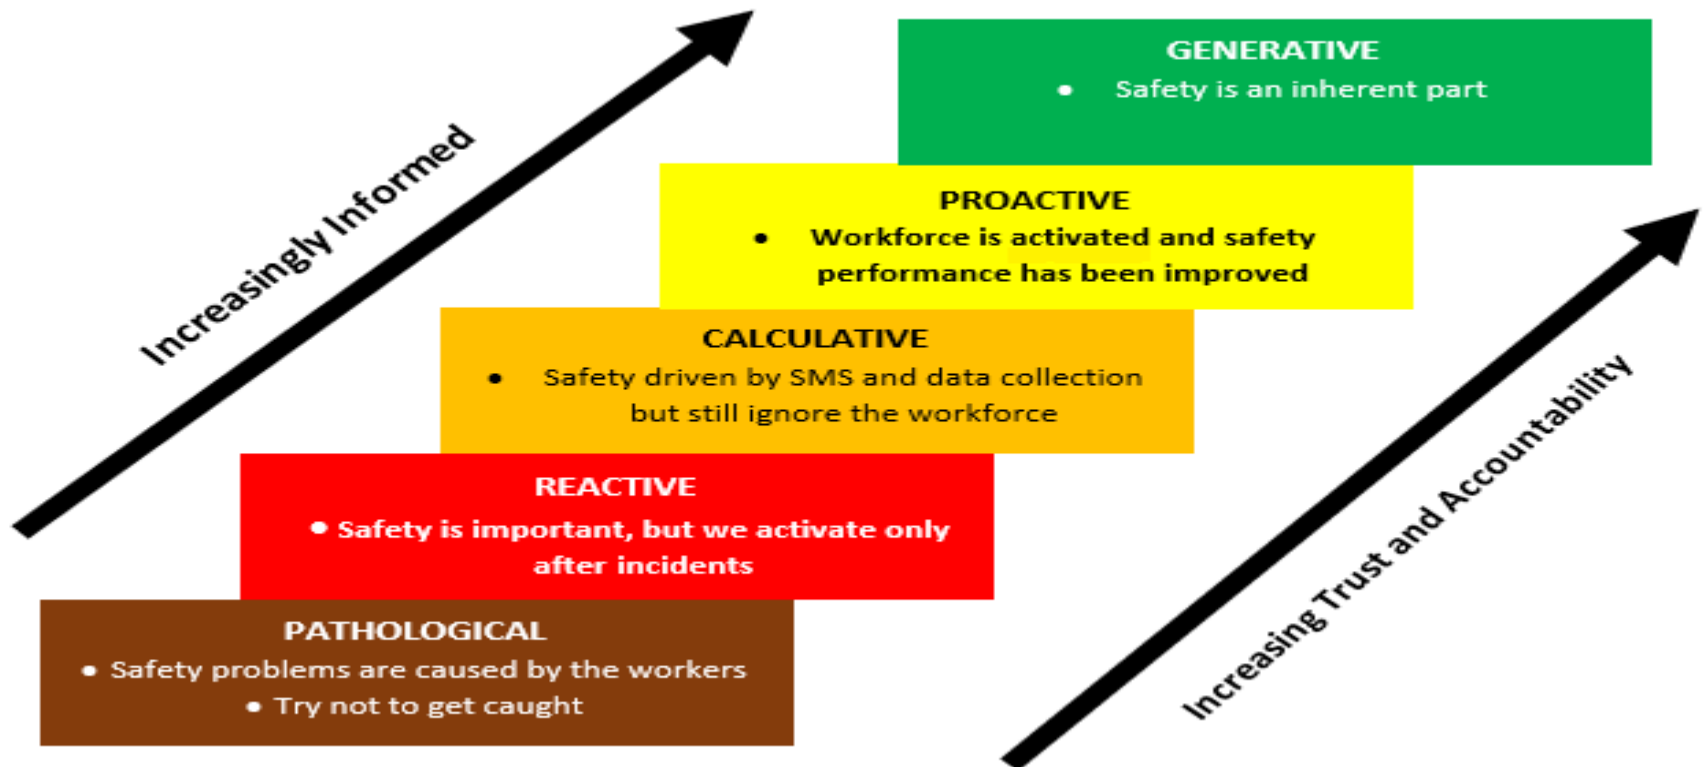

- ASMS represents the foundation of the application of aviation safety risk management.
- The size, shape, and complexity of an ASMS depends on the nature, and risk profile of the business.
- ASMS enables organisations to manage and withstand the different environmental change.

# DASR ASMS – SAFETY CULTURE TYPES

## Types of Safety Cultures

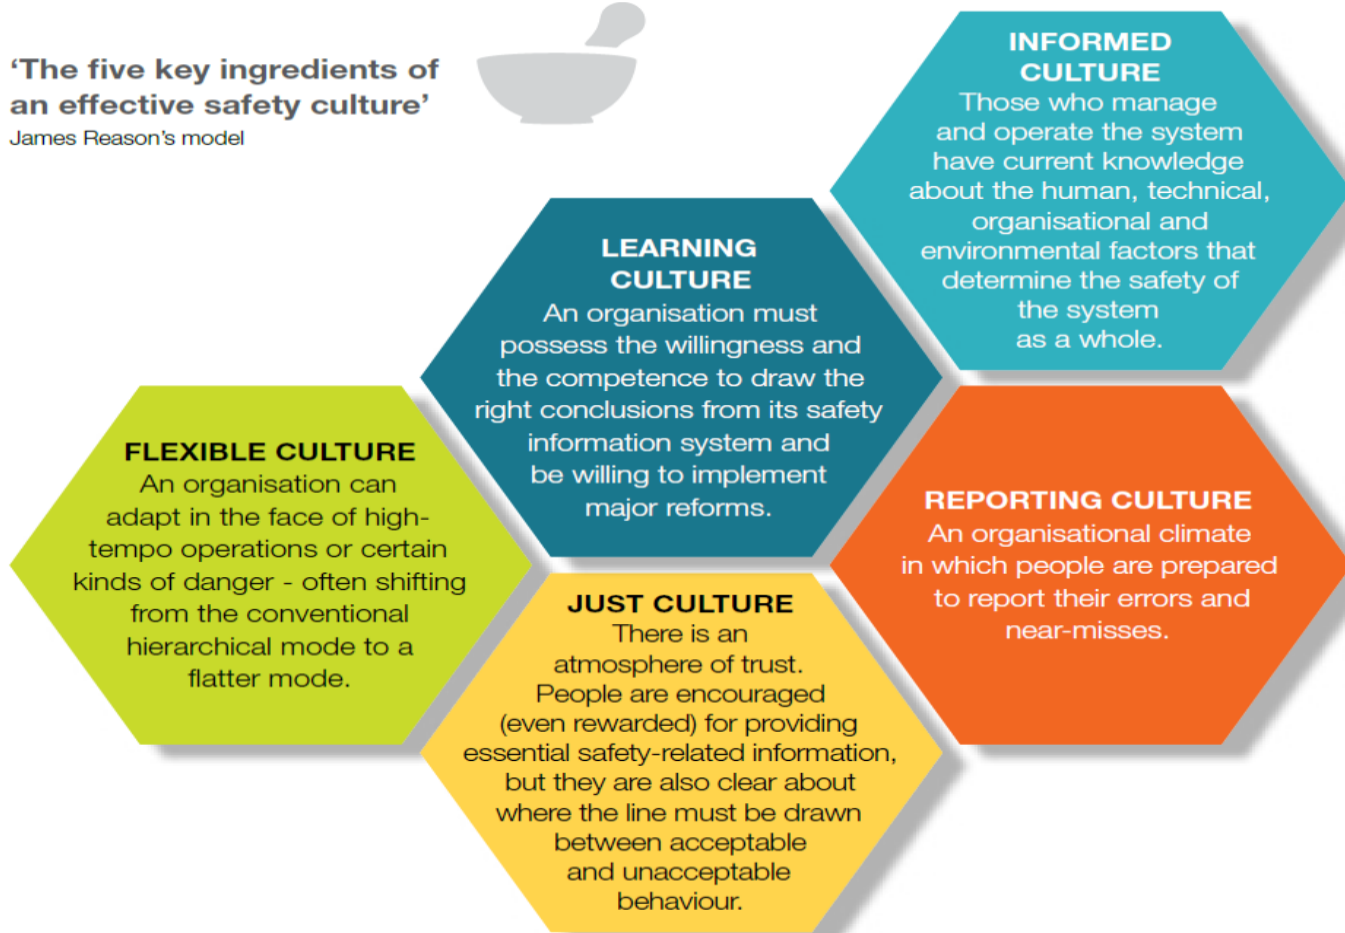

# DASR ASMS – ORGANISATIONAL SAFETY CULTURE

**'The five key ingredients of  
an effective safety culture'**

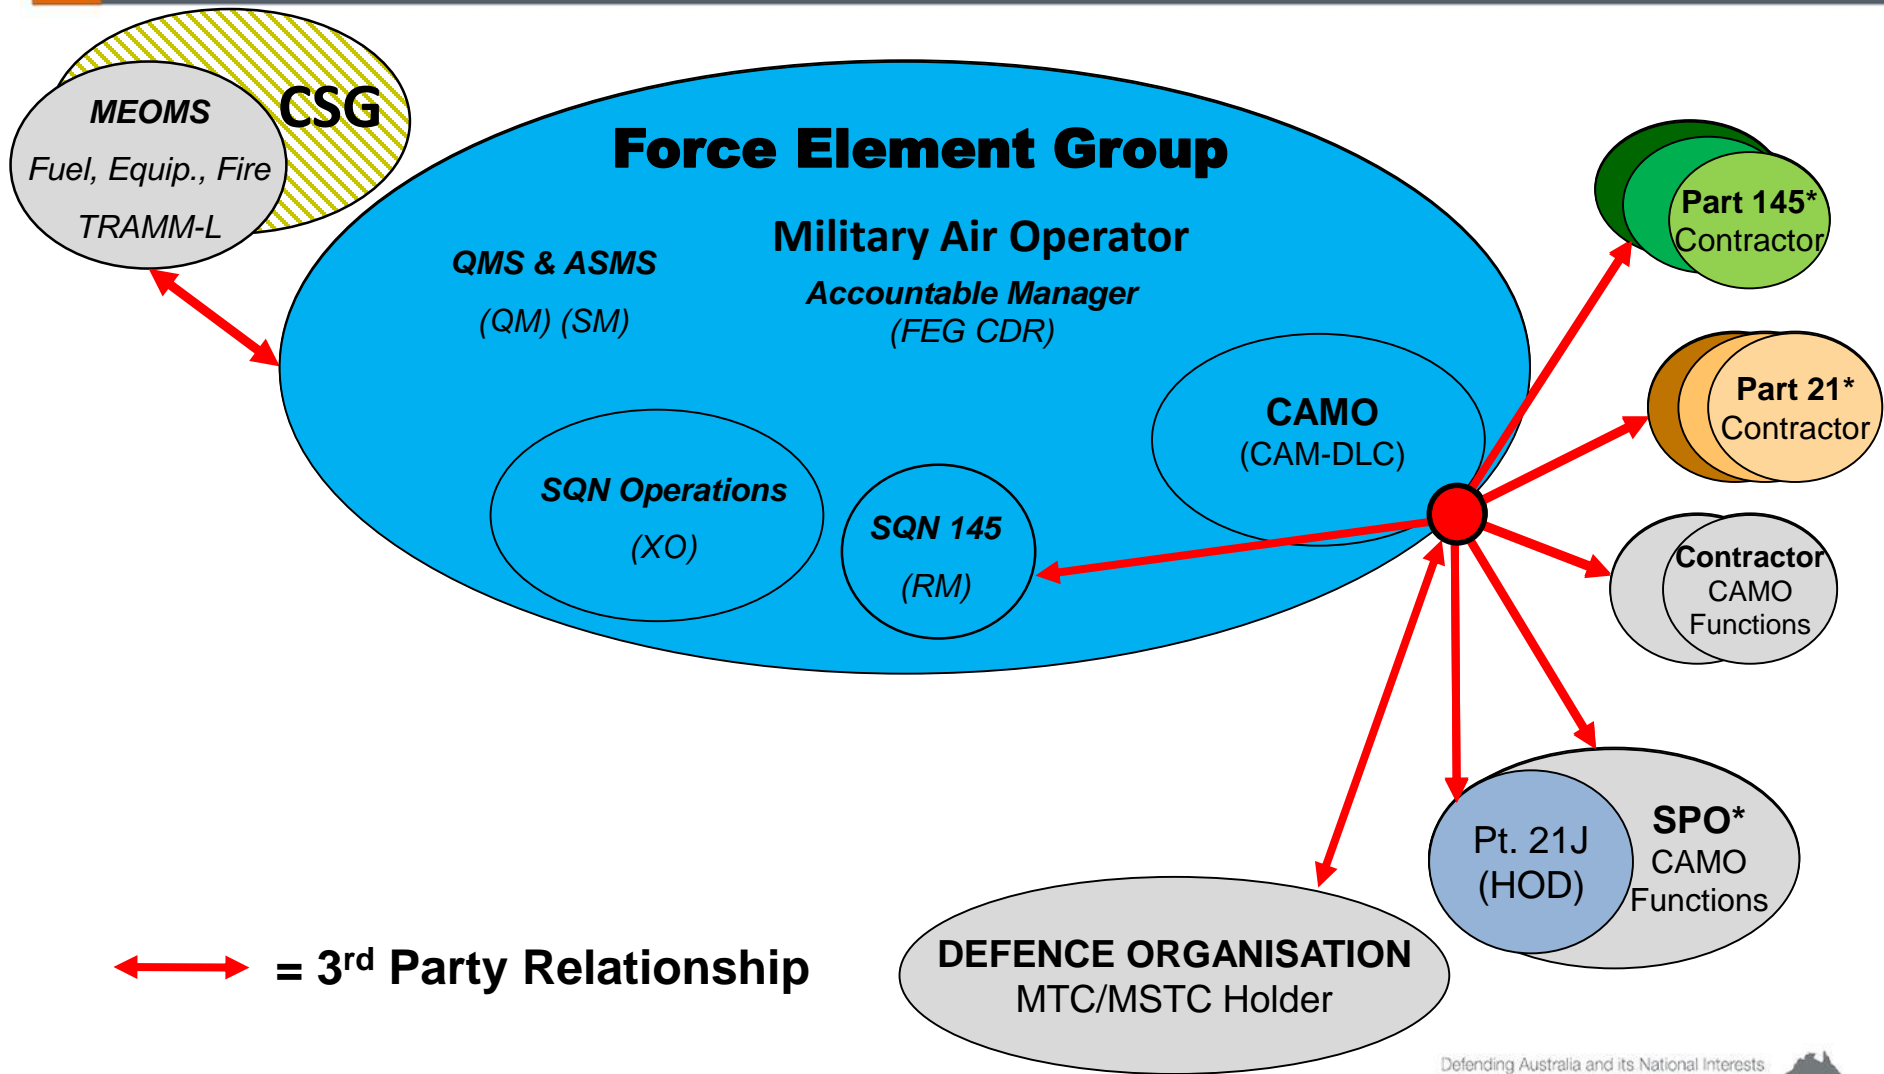

James Reason's model

# ASMS INTERFACE AND INTEGRATION

(Only CAMO 3<sup>rd</sup> Parties Shown)

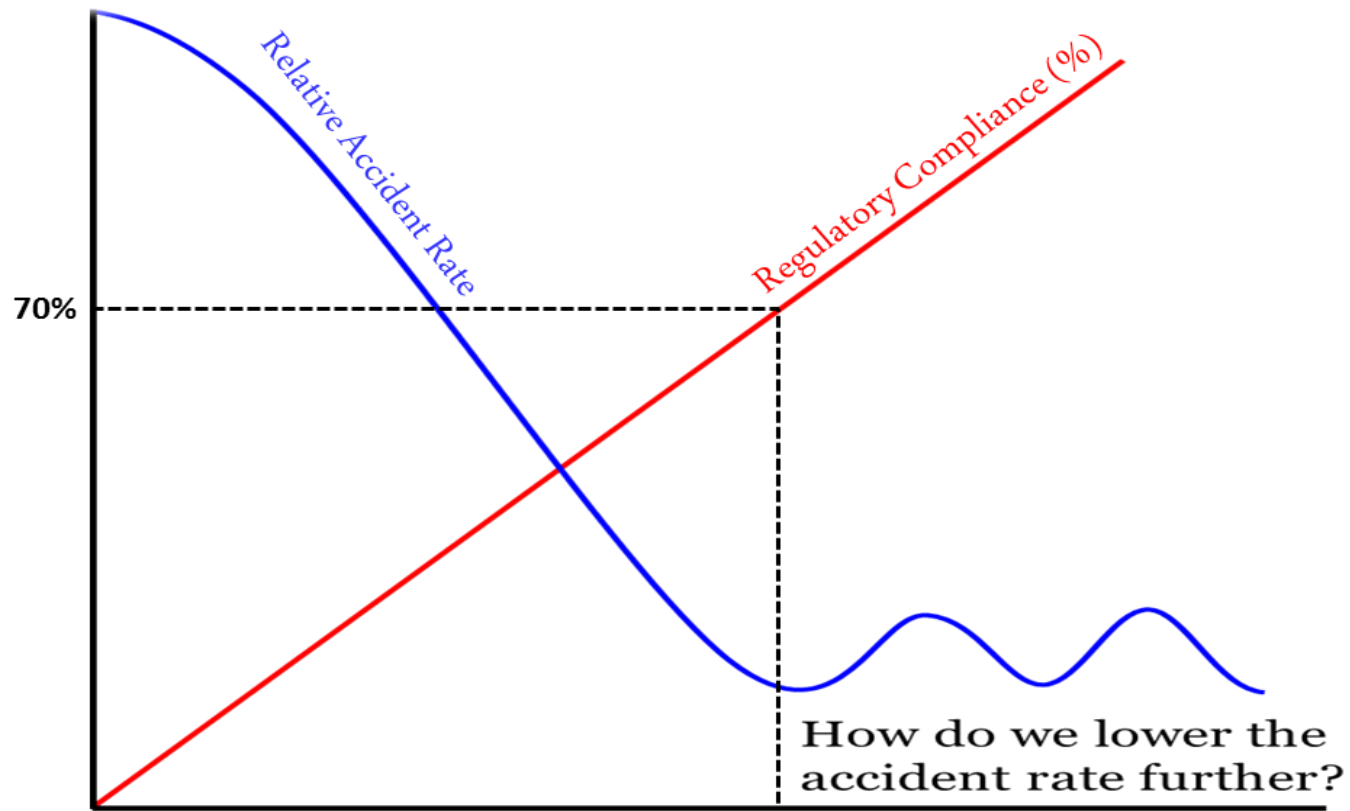

# DASR ASMS

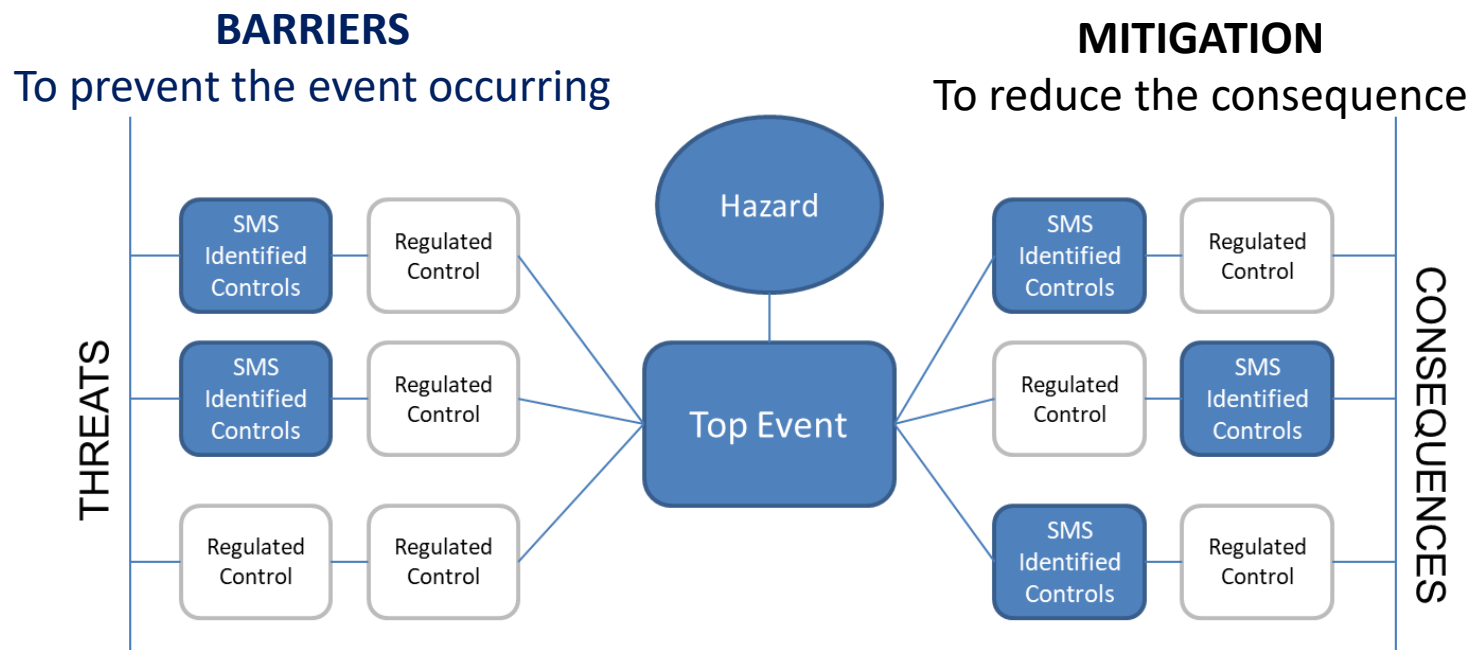

# ICAO SAFETY DATA VS ASMS IMPLEMENTATION

# ASMS Rationale

Process regulation provides a minimum level of protection against hazards that threaten safety, with overall effectiveness limited by organisational, environmental and human factors. A safety management system provides a higher level of safety by supporting and extending the protection afforded through process regulation alone.

Australian Government

Defence Aviation Safety Authority

# AVIATION SAFETY MANAGEMENT SYSTEM

## ASMS STRUCTURE AND ASSESSMENT

**Defence Aviation**  
**Safety Authority**

## DASR ASMS – ASMS STRUCTURE.

**The approved organisation shall establish and maintain an ASMS that shall:**

- Be established with the 4 components and 12 elements.
- Be commensurate with the size of the organisation and complexity of its aviation products and/or services.
- Be maintained with a maturity level that is acceptable to the Authority.

Reference: [DASR SMS.A.25.a](#)

## DASR ASMS – ACCEPTABLE LEVEL OF MATURITY

**REG.A.XX– “The organisation must / shall achieve the outcome of XXXX.”**

**SMS.A.25 (a) 3 – “The SMS of the approved organisation shall be maintained with a maturity level that is acceptable to the Authority.”**

## DASR ASMS – ASMS ASSESSMENT AND MATURITY

- Assessed by DCA, DIA and/or ACPA.
- Checklist of maturity indicators assessed as Present, Suitable, Operating or effective (PSOE).
- Summarises results, providing a graphical representation of ASMS maturity.

Membership of the SM ICG includes the NAA of Spain, Brazil, Netherlands, New Zealand, Singapore, Hong Kong, Australia, France, Italy, Switzerland, Ireland, Japan, United States, Canada, United Arab Emirates, United Kingdom and the European Aviation Safety Agency (EASA). Additionally, the International Civil Aviation Organization (ICAO) is an observer to this group.

## DASR ASMS – ASSESSMENT AND MATURITY

Effective

### Effective

There is evidence that the indicator is effective and achieving the desired outcome.

Operating

### Operating

There is evidence that the indicator is in use and an output is being produced.

Suitable

### Suitable

The indicator is suitable based on the size, nature, complexity of the organisation and the inherent risk in the activity, including consideration of the industry sector.

Present

### Present

There is evidence that the 'indicator' is clearly visible and is documented within the organisation's SMS Documentation.

**Defence Aviation  
Safety Authority**

# DASR ASMS – COMPONENTS

1. Safety Policy and Objectives
2. Safety Risk Management
3. Safety Oversight and Improvement
4. Safety Promotion

# **1. Safety Policy and Objectives**

## **1. Safety policy and objectives**

- 1.1 Management commitment
- 1.2 Safety accountability and responsibilities
- 1.3 Appointment of key safety personnel
- 1.4 Coordination of emergency response planning
- 1.5 ASMS documentation

## **2. Safety risk management**

- 2.1 Hazard identification
- 2.2 Safety risk assessment and mitigation

## **3. Safety oversight and improvement**

- 3.1 Safety performance monitoring and measurement
- 3.2 The management of change
- 3.3 Continuous improvement of the ASMS

## **4. Safety promotion**

- 4.1 Training and education
- 4.2 Safety communication

## 1.1 Management Commitment

The organisation must define its safety policy and safety objectives.

# 1.1 Management Commitment

**What does that look like?**

- **A safety policy, signed by the AM, that includes a commitment to continuous improvement, observes all applicable legal requirements and standards and considers best practices.**
- **The safety policy includes for the provision of appropriate resources.**
- **There are policies relating to Fitness for Duty.**
- **Safety policy is communicated.**

# 1.1 Management Commitment

**What does that look like? (Cont.)**

- **The safety policy encourages reporting.**
- **Positive safety/just culture policy and principles have been defined.**
- **Safety objectives have been established.**
- **Defence Aviation Safety Programme (DASP) is being considered.**

## 1. Safety policy and objectives

### 1.1. Management commitment

## 1.2 - Safety Accountability and Responsibilities

The organisation must appoint an Accountable Manager and develop an organisational safety structure with clearly defined lines of safety accountability and responsibilities.

## 1.2 - Safety Accountability and Responsibilities

**What does that look like?**

- **An Accountable Manager has been appointed with full responsibility and accountability for the ASMS.**
- **Accountable Manager is fully aware of their ASMS roles and responsibilities.**
- **Safety accountabilities, authorities, and responsibilities are defined and documented throughout the organisation and staff understand their own responsibilities.**

## 1.3 - Appointment of Key Safety Personnel

The organisation must allocate responsibilities to key safety personnel for the implementation and maintenance of the SMS. Depending on the size of the organisation and the complexity of its aviation products or services, the key safety personnel may be an individual or a group within the organisation.

## 1.3 - Appointment of Key Safety Personnel

### What does that look like?

- **A safety manager has been appointed with a direct reporting line to the Accountable Manager.**
- **The organisation has allocated sufficient resources to manage the SMS including,**
  - competent staff for safety investigation,
  - analysis,
  - auditing, and
  - promotion.
- **The organisation has established appropriate safety committee/s.**

## 1.4 - Coordination of Emergency Response Planning

The organisation must, if required, establish and maintain an emergency response plan for accidents and incidents in aircraft operations and other aviation emergencies.

## 1.4 - Coordination of Emergency Response Planning

**What does that look like?**

- **An emergency response plan (ERP) has been developed that defines the procedures, roles, responsibilities, and actions of the various organisations and key personnel.**
- **ERP is periodically tested .**

## 1.5 - ASMS Documentation

The organisation must produce and maintain its Safety Management System (SMS) documentation in a way that is accessible and useable to all relevant personnel.

## 1.5 - ASMS Documentation

**What does that look like?**

- **Includes the policies and processes that describe the organisation's safety management system.**
- **ASMS documentation is regularly reviewed.**

## 2. Safety Risk Management (SRM)

### ***1. Safety policy and objectives***

- 1.1 Management commitment
- 1.2 Safety accountabilities and responsibilities
- 1.3 Appointment of key safety personnel
- 1.4 Coordination of emergency response planning
- 1.5 SMS documentation

### ***2. Safety risk management***

- 2.1 Hazard identification
- 2.2 Safety risk assessment and mitigation

### ***3. Safety oversight and improvement***

- 3.1 Safety performance monitoring and measurement
- 3.2 The management of change
- 3.3 Continuous improvement of the ASMS

### ***4. Safety promotion***

- 4.1 Training and education
- 4.2 Safety communication

## 2.1 – Hazard Identification

Focus: Aviation Safety Hazards

# ASMS is designed to identify:

### Aviation safety hazards

*“Hazards and risks associated with airworthiness and safe flight of State aircraft”* [DASA AC 003/18: para 2.2.1](#)

## 2.1 – Hazard Identification

The organisation must develop and maintain a process to identify hazards associated with its aviation operations, products or services.

## 2.1 – Hazard Identification

**What does that look like?**

- **A confidential reporting system to capture errors, hazards, and near misses.**
- **A system that provides feedback to the reporter and/or organisation.**
- **Personnel express confidence and trust in the reporting policy.**
- **Hazards are identified through reactive and proactive methods (inclusive of human performance hazards).**
- **Safety data and safety information are analysed for trends.**
- **Safety investigations are carried out by appropriately trained personnel to identify root causes.**
- **Internal and external interfaces are documented.**

## 2.2 – Safety Risk Assessment and Mitigation

Risks to health and safety must be managed in accordance with the requirements contained within the Work Health and Safety Act 2011 and the Work Health and Safety Regulations 2011.

## 2.2 – Safety Risk Assessment and Mitigation

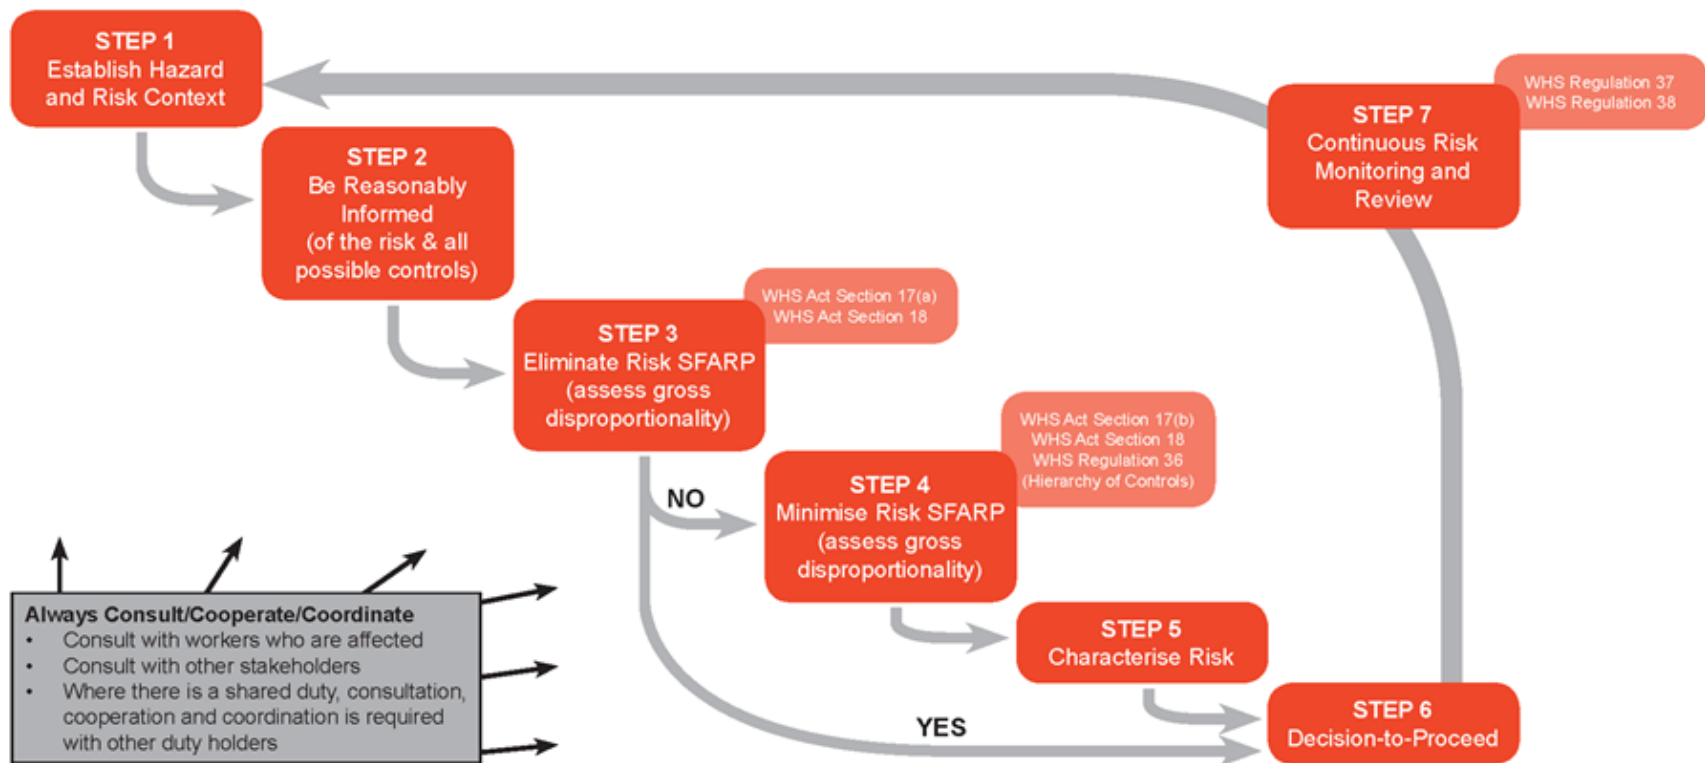

**What does that look like?**

- **Analysis and assessment of are expressed in terms of likelihood and severity (or alternative methodology).**
- **Criteria for evaluating the residual level of risk the organisation is managing.**
- **Risk controls are applied and effective.**
- **Senior management has visibility of medium and high risk hazards and their mitigations.**

## 2.2 – Safety Risk Assessment and Mitigation

### Safety Risk Management Process

*“AC 003/2018 – Risk Management in the Defence Aviation Safety Program”*

# 3. Safety Oversight and Improvement

## **1. Safety policy and objectives**

- 1.1 Management commitment
- 1.2 Safety accountabilities and responsibilities
- 1.3 Appointment of key safety personnel
- 1.4 Coordination of emergency response planning
- 1.5 ASMS documentation

## **2. Safety risk management**

- 2.1 Hazard identification
- 2.2 Safety risk assessment and mitigation

## **3. Safety oversight and improvement**

- 3.1 Safety performance monitoring and measurement
- 3.2 The management of change
- 3.3 Continuous improvement of the ASMS

## **4. Safety promotion**

- 4.1 Training and education
- 4.2 Safety communication

## 3.1 – Safety Performance Monitoring & Measurement

**The organisation must develop and maintain the means to verify the safety performance of the organisation and to validate the effectiveness of safety risk controls.**

**RISK  
MANAGEMENT**

**SAFETY  
OVERSIGHT AND  
IMPROVEMENT**

## 3.1 – Safety Performance Monitoring & Measurement

### What does that look like?

- **Safety performance indicators (SPIs) have been defined, promulgated, and are being monitored and analysed for trends.**
- **Risk mitigations and controls are being verified/audited .**
- **Directly contracted organisations are included.**
- **Safety regulations management is defined and documented.**
- **There is an internal audit programme.**
- **Audit outcomes identify causal factors and corrective/preventive actions are taken.**
- **Responsibilities and accountabilities for the internal audit process (audit personnel have direct access to the Accountable Manager).**

## 3.2 – The Management of Change

The organisation must develop and maintain a process to identify and treat new or different risks that may arise from changes at the workplace.

## 3.2 – The Management of Change

**What does that look like?**

- **Identification of changes that have an impact on safety and to manage any identified risks.**
- **Human Factor (HF) issues have been considered as part of the change management.**

## 3.3 – Continuous Improvement

The organisation must develop and maintain a process to ensure continuous improvement of the performance of the ASMS.

## 3.3 – Continuous Improvement

**What does that look like?**

- **The organisation is continuously monitoring and assessing its SMS processes to maintain or continuously improve the overall effectiveness of the SMS.**

## 4. Safety Promotion

### **1. Safety policy and objectives**

- 1.1 Management commitment
- 1.2 Safety accountabilities and responsibilities
- 1.3 Appointment of key safety personnel
- 1.4 Coordination of emergency response planning
- 1.5 ASMS documentation

### **2. Safety risk management**

- 2.1 Hazard identification
- 2.2 Safety risk assessment and mitigation

### **3. Safety oversight and improvement**

- 3.1 Safety performance monitoring and measurement
- 3.2 The management of change
- 3.3 Continuous improvement of the ASMS

### **4. Safety promotion**

- 4.1 Training and education
- 4.2 Safety communication

## 4.1 – Training and Education

The organisation must establish a process to ensure that **all personnel are trained and competent** to perform their ASMS duties.

## 4.1 – Training and Education

**What does that look like?**

- **There is a training programme for SMS in place that includes initial and recurrent training.**
- **Training effectiveness is measured.**
- **Training includes human and organisational factors.**
- **An individual's competence is evaluated.**
- **Competence of trainers is defined and assessed.**

## 4.2 – Safety Communication

The organisation must establish a process to ensure that personnel, internal and external to the organisation, have current and pertinent safety information.

## 4.2 – Safety Communication

**What does that look like?**

- **Safety critical information is communicated throughout the organisation, as relevant including contracted organisations/personnel.**

Australian Government

Department of Defence

Defence Aviation Safety Authority

# ASMS ENGAGEMENT

**Defence Aviation**  
**Safety Authority**

## DASR ASMS – ENGAGEMENT AND OVERSIGHT

- **2020 – Engaged by DASA**
  - Educated Safety Managers (ongoing)
  - Assisted self-determine current state
  - Communicated expectations
  - Impacted by COVID-19
- **2021(+) – Full Assessments by DASA**
  - Onsite assessments
  - Review evidence of operation
  - Establish future expectations

**EDUCATE**

# DASR ASMS – ENGAGEMENT

## ASMS Practitioner Course

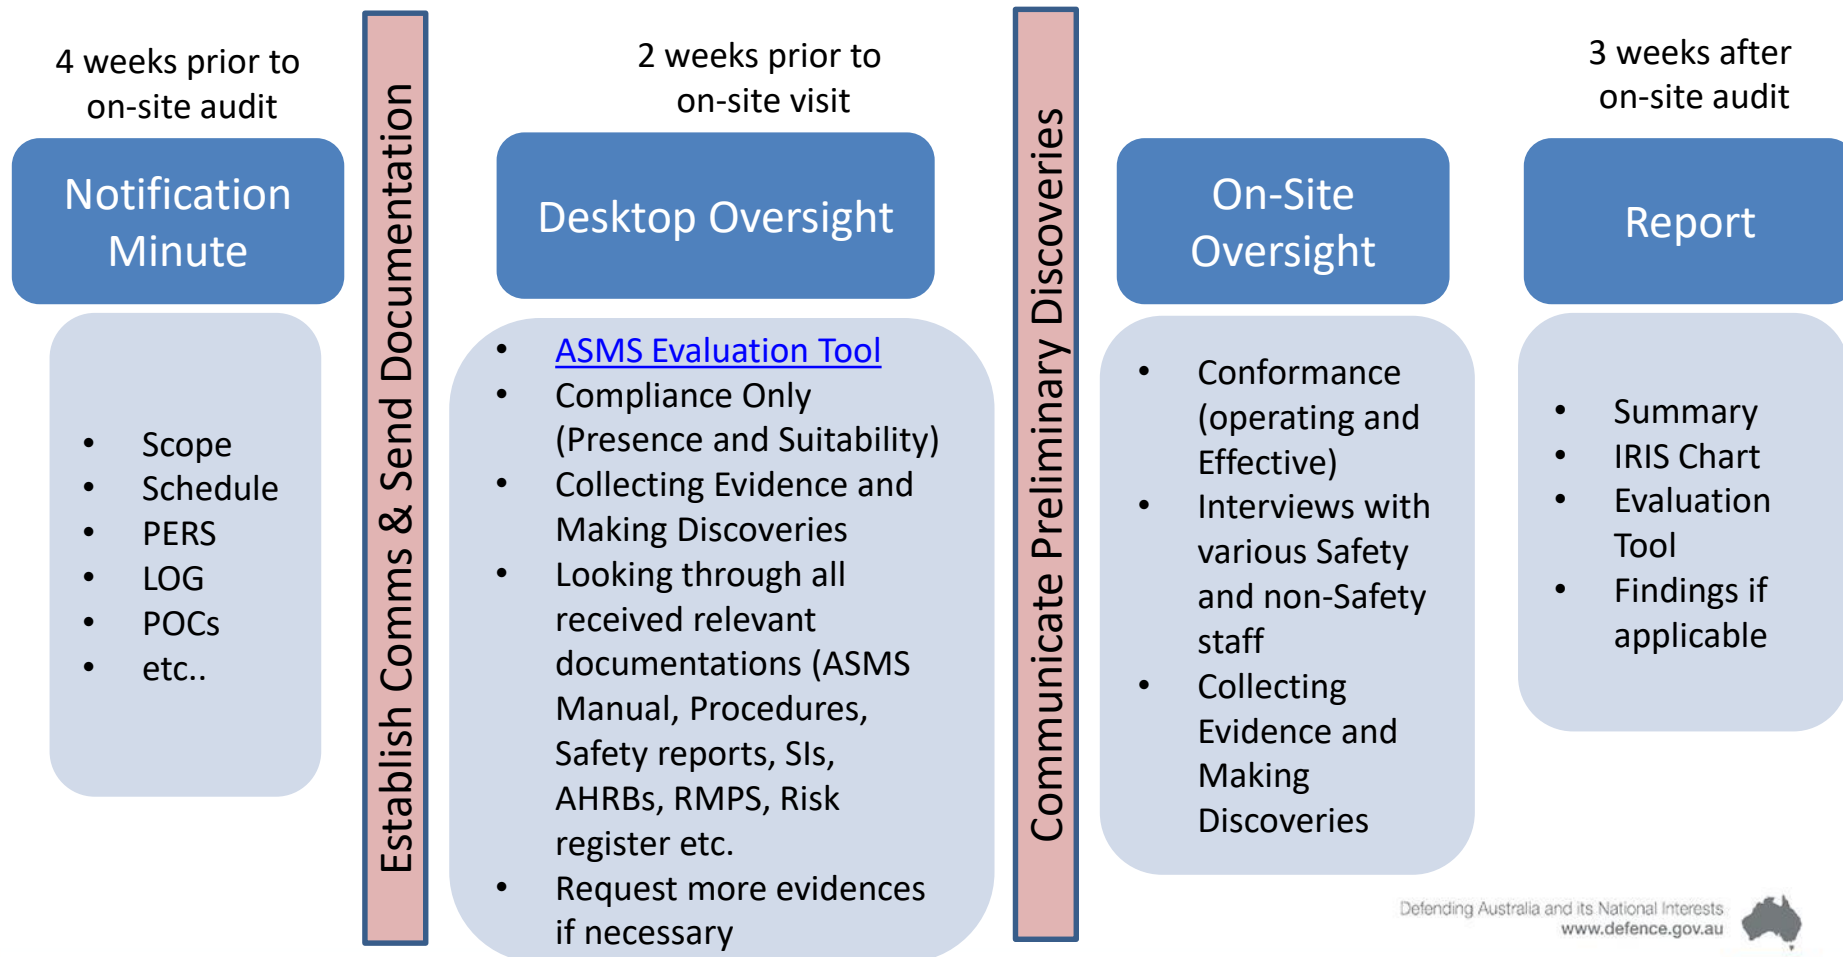

- Targeted at Safety Managers.
- Additional ASMS Practitioner Courses will be scheduled as required to meet demand based on nomination submissions into the future.
- Delivery mode depends on COVID-19 restrictions.

## DASA ASMS Group Mailbox

- For all ASMS inquiries or engagement requests, contact [dasa.asms@defence.gov.au](mailto:dasa.asms@defence.gov.au)
